Longfellow's Greenhouses

Wild Red Columbine

Aquilegia canadensis

Plant Height: 24 inches

Flower Height: 3 feet

Spread: 24 inches

Sunlight: ○ ◐

Hardiness Zone: 2

Other Names: American Columbine

Description:

Beautiful nodding, red and orange flowers stand tall above light green foliage; an upright habit, perfect for garden beds, borders or patio containers; easy to grow; maintenance needed to control self-seeding

Ornamental Features

Wild Red Columbine has masses of beautiful nodding tomato-orange bell-shaped flowers with yellow eyes and orange spurs at the ends of the stems in late spring, which are most effective when planted in groupings. The flowers are excellent for cutting. Its lobed compound leaves remain light green in color throughout the season.

Landscape Attributes

Wild Red Columbine is an herbaceous perennial with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

Planting & Growing

Wild Red Columbine will grow to be about 24 inches tall at maturity extending to 3 feet tall with the flowers, with a spread of 24 inches. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 3 years. As an herbaceous perennial, this plant will usually die back to the crown each winter, and will regrow from the base each spring. Be careful not to disturb the crown in late winter when it may not be readily seen!

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This species is native to parts of North America.
